

Team Name: sddec21-16

Team Members:

- Dylan Black
- Andy Dugan
- Zhi Wang
- Jack Phillips
- Jacob Abkes

Advisor/client: Dr. Lotfi ben Othmane

Report Period: Sep 27 - Oct 11

Summary of Progress in this Period

1. Reevaluated project scope with advisor/client based on feedback from security experts.
 2. Updated product backlog with updated impact scores to reflect feedback from security experts.
 3. Completed work on new highest priority items in backlog, (Logging, User Management).
 4. Began a spike on new feature ideas from security experts (User defined tags for posts).
 5. Decided to wait on expanding search functionality until we implement user defined tags for posts.
-

Pending Issues

1. User acceptance testing of logging and user management.
-

Plans for Upcoming Reporting Period

1. Add user defined tags to posts
 2. Search posts by tags
 3. Account Page
 4. Expand user-management functionality to include session identification.
